I understand the Program will use my Information to access my credit information and other sources to estimate my household income for Program eligibility. As a soft credit inquiry, this option will not impact my credit score.

I do not have ANY prescription drug coverage that helps pay for or potentially helps pay for the requested medication (except for Medicare). Prescription drug coverage means any type of government health insurance program (except for Medicare) or private (commercial) insurance that may cover your medication, even if that coverage includes an alternate funding program (sometimes called specialty drug carve out) that requires you to first try to obtain your medicine from a third party or patient assistance program, like AZ&Me.
